THE PROGRAMME

IN SHORT

Created and delivered by EUIPO staff members and leading IP professionals, the EUIPO Trade Mark and Design Education Programme (ETMD EP) for practitioners focuses on the interactions between the EUIPO and IP practitioners in the trade marks and designs fields.

Our comprehensive curriculum provides a rich learning experience, designed to fit seamlessly into participants' full-time work schedule. The ETMD EP for practitioners offers a range of options, including scheduled and self-study activities, as well as on-site and online participation.

To cater to individual needs, we have created **three tracks**:

- 1 trade mark and design track (full programme),
- 2 trade mark track,
- 3 design track.

Start of the course		05/10/2023		

LEARNING ACTIVITIES

LEARN MORE

IPLabs

(compulsory)

IP Labs are **practical learning activities** that will allow the participants to acquire or improve skills related to EUIPO proceedings and IP practices.

They are **interactive and engaging** training activities that strike the right balance between content delivery, practical learning and reflection time.

By the end of the IP Labs, participants should feel confident in their ability to apply the new knowledge and skills to their work, with the support of the takeaways they have produced.

Each IP Lab will be co-delivered by an internal or external IP expert and a learning facilitator.

e-learning resources

(optional)

Learning resources in various formats available online 24/7.

Learning forum

An online platform for participants to engage in discussions, share ideas and knowledge, and receive support and feedback from peers and trainers.

Additional activities

(optional)

- **IP lab "Legal design: how to deliver easily understood legal advice?":** an IPLab to improve communication, engagement, outcomes, reputation, and efficiency of legal works.
- **"On demand activity":** a short presentation of the EUIPO tools and services (based on participants needs and EUIPO news)
- **Sandbox:** A rehearsal session for the final exam based on real exam examples and led by IP tutors

PEDAGOGICAL TEAM

LEARN MORE

Facilitators have been appointed to create a positive learning environment and facilitate the learning process, while **trainers** provide high quality training, assess performance and collaborate with other trainers.

Tutors will support participants throughout the year and contribute to the continuous improvement of training materials and assessments.

A **student representative** will liaise between the students and the programme organisers.
